

Alice Pauková – silk painting

from Czech Republic

Ms. Pauková began her painting activity as a student at art school. At this time, she began to develop her first paintings in charcoal and pencil and then further honed her skills as an academic painter between 1991 and 1993. After this, a period of work with collage appeared in order to express her feelings towards the outside world. Ms. Pauková has begun to focus on silk painting in recent years by creating not only paintings, but also working with fashion accessories and clothing. She finds inspiration in nature, and her paintings are imbued with optimism.
